# Charles Dichens OLiver Twist 

Oliver Twist is poor. Always has been, always will be. Being born in a workhouse means that you'll probably always be treated like rubbish.

What Oliver really needs is a family. But is a family of thieves, kidnappers and killers really a family at all?

The letters in Oliver's famous phrase are all jumbled up! Can you help put them back together?

Can you put the story back in the correct order?

The Brownlows take Oliver in after the police release him.
Bill Sikes brings Oliver back to the gang.
Oliver lives happily ever after with the Brownlows.
Oliver runs away from the Sowerberrys.
The Artful Dodger introduces Oliver to Fagin's gang.
